

Timur Nazipov

Frontend Engineer · React / TypeScript / Vue / Next.js

Seattle, WA · Open to Remote / Hybrid / On-site

[website](#) · [Github](#) · [linkedin](#) · timurnazipov@gmail.com

Frontend Engineer with 4+ years of experience building scalable, high-performance web applications. Strong expertise in React, Vue, TypeScript, and JavaScript (ES6+). Proven ability to optimize performance (LCP <2.5s, TTI ~30%), integrate AI-powered features into user interfaces, implement low-latency UIs, and deliver WCAG 2.1 AA-compliant products. Experienced in real-time applications (WebSockets, REST, GraphQL), file systems (AWS S3 multipart uploads), and cross-functional collaboration with product/design teams.

Core Skills

Frontend: React, Vue 3, TypeScript, Next.js, Redux, Vuex, TailwindCSS, Webpack/Vite, WCAG 2.1

AI Integration: Anthropic API, OpenAI API, LLM-powered UI, streaming responses, prompt engineering

Backend/API: Node.js, Express, GraphQL, REST, AWS S3

Testing: Jest, React Testing Library, Cypress

Tools: Git, GitHub Actions, Jira, Agile, Figma

Professional Experience

WiseTREND — Software Engineer Apr 2024 – Present · Remote (California)

- Integrated AI-powered automation (LLM APIs, streaming responses) into enterprise platform workflows, reducing manual input by 37% and improving user productivity across cross-functional teams.
- Built AI-driven UI components with real-time streaming output, context-aware suggestions, and conversational interfaces using Anthropic and OpenAI APIs.
- Built and maintained a scalable front-end design system in React and Vue powering multiple enterprise apps, ensuring reusability and consistent UX across teams.
- Integrated and extended an open-source speech-to-text engine to enable voice input in a web UI, expanding accessibility to an additional 20% of users.
- Built a fault-tolerant file upload system using AWS S3 multipart uploads, improving stability for 1GB+ media files by ~40%.
- Improved app performance via dynamic imports, lazy loading, and input debouncing; built drag-and-drop interactions with custom validation and real-time REST API sync.
- Collaborated with designers in Figma to translate specs into responsive, WCAG 2.1 AA-compliant UI components.
- Mentored junior developers through code reviews and pair programming, improving team delivery velocity.

Freelance Frontend Developer Mar 2021 – Mar 2024

- Built React and Vue applications for clients across e-commerce, SaaS, and media verticals; managed full project lifecycle from spec to deployment.
- Delivered SEO-optimized landing pages with Next.js (SSR/ISR), improving performance, accessibility, and scalability for high-traffic use cases.
- Collaborated with backend engineers on Express APIs and mobile teams to ensure smooth cross-platform integration.

OTR (VTB) — Junior Frontend Developer Jan 2020 – Feb 2021 · Kazan, Russia

- Helped deliver a single-page app for client onboarding at VTB Bank, reducing manual registration time by 30% through optimized form flow.
- Contributed to an internal Vue UI component library, increasing design consistency and cutting UI dev time by 20% for new features.

Education

Bachelor's Degree in Computer Science · Kazan Federal University, Russia · 2016
