Work Authorization: Authorized to work in the U.S.

Frontend Engineer · React, TypeScript, Performance & Accessibility

Frontend Engineer with 3+ years of experience building high-performance, scalable SPAs.

Expert in React & TypeScript, design systems, accessibility (WCAG 2.1 AA), and performance optimization (LCP < 2.5s, TTI -30%).

Proven track record of delivering user-focused, maintainable code and improving developer productivity through reusable UI frameworks.

Core Skills

Frontend: React, TypeScript, JavaScript (ES6+), Redux, React Query, TailwindCSS, Webpack/Vite, HTML5, CSS/SCSS, WCAG 2.1 AA

Backend/API: Node.js, Express, REST, GraphQL, AWS S3 (multipart upload)

Testing: Jest, React Testing Library, Cypress

Tools: Git/GitFlow, RecordRTC, Jira, Trello, Agile/Scrum

Professional Experience

WiseTREND — Frontend Developer | Apr 2024 – Present | Remote (California)

- Built a fault-tolerant, scalable file upload system using AWS S3 multipart uploads, improving stability for 1GB+ media files by ~40%.
- Developed reusable UI components and utilities as part of an internal design system, ensuring consistent look and feel across multiple products.
- Integrated and extended an open-source speech-to-text engine to enable voice input in a web-based UI, improving accessibility by 20%.
- Integrated AI into platform workflows, cutting manual input by 37% and boosting user productivity.
- Enhanced app performance and interactivity by implementing dynamic imports, lazy loading, and input debouncing; developed drag-and-drop file and table interactions with custom validation and real-time REST API sync.
- Collaborated with designers in Figma to translate design specs into responsive, WCAG-compliant UI, leveraging TailwindCSS (Atomic CSS utilities) and scalable component architecture.

Independent Frontend Developer | Mar 2021 – Mar 2024

- Designed small React apps with focus on clean UX, visual consistency, and modular structure
- Practiced testing key UI logic with Jest and validated core interactions manually

OTR (VTB) — Junior Frontend Developer | Jan 2020 – Feb 2021 | Kazan, Russia

- Helped deliver a single-page app for client onboarding, reducing manual registration time by ~30% through optimized form flow
- Contributed to an internal UI component library, increasing design consistency and cutting UI dev time by ~20% for new features

Education

Kazan Federal University — Bachelor's Degree in Computer Science

2016 | Russia
